PROJECTS

JURN(EASE) VACATION PLANNING APP

Capstone Project for PunchCode.
Worked with a team remotely to plan, design, and build a vacation planning web application using GitHub for version control.
Utilized JavaScript, React, Redux, HTML, Sass CSS to build the front-end with Express and MySQL for the back-end.

CHATROOM

Created Slack clone while learning authentication techniques using JavaScript, React, Redux, Express, SocketIO, and MySQL

RYAN'SLIST

Created a replica "Craigslist" website using, JavaScript, React, and Redux for front-end with Express and MySQL for the back-end.

EMPLOYMENT

BREAKTHRU BEVERAGE

Merchandiser

North Las Vegas, NV
Sept. 2017 - Jan. 2020

Organized record keeping using Google Drive making them user friendly, easy to search, and easily accessed by several people at once.

GUARANTY BANK

Assistant Branch Manager

Sheboygan, WI
Jan. 2017 - May 2017

Boosted branch results by 9% by strengthening relationships with the client base and identifying sales and service solutions tailored to client needs.

Increased transparency for executive management by identifying trends and creating reports to monitor deviations from targets for improved account and employee management.

GENERAL BEVERAGE

Merchandising Department Manager

New Berlin, WI
Jan. 2004 - Sept. 2016

Developed mentoring program to create a culture of upward mobility within the company.

Steered daily operations and business development initiatives by successfully managing 12 fulltime merchandisers and 6 part-time merchandisers across 7 counties.

Facilitated a collaborative work environment where problems were managed immediately by having open lines of communication with entire team.
